

Grace Napier - COVID-19 update

What is happening?

This Sunday we will meet as normal at 10:00am. At this stage the Ministry of Health recommends groups under 100 can still meet. However this number is likely to get smaller and we want to be wise and loving in this matter.

If you feel unwell, do stay home, but please let us know as we would love to pray for you.

If meeting publicly is not in your best interests due to your work situation or own health situation feel free to stay home. We understand your valid reasons and respect your decision. Let us know how we can support and pray for you as well.

With the recommended public meeting numbers likely to be reduced in the coming days, we propose that Grace Napier moves to a Simple Church style of community, similar to those practiced in China and Iran (for the next little while). It is essentially a homegroup style or cell group style church. This will be hosted by a family with a couple of other families joining them. Many churches around the world are doing this and it is a picture of what persecuted churches have done for years. Resources will be provided so we can all be growing together but in separate locations. We will let you know more details on Sunday and in future emails.

If you and your family end up in self isolation these resources can be made available to you. So please let us know and also how we can help you.

This is a time when as Christians our faith must deepen, our hope in Him must grow and our love for one another be expressed.

God Bless

Mark
